U.S. Sector Overview

STRATEGY HIGHLIGHTS

- Diversified ETFs from Leading U.S. Providers
- Long Only
- Macro-Based Process
- Sector Emphasis
- Typically 4 to 6 Holdings
- No Leverage, Derivatives, or Options
- Inception January 2013

WestEnd Advisors believes that investments in S&P 500 sectors in their economic time will outperform the broad market.

U.S. Sector Investment Process

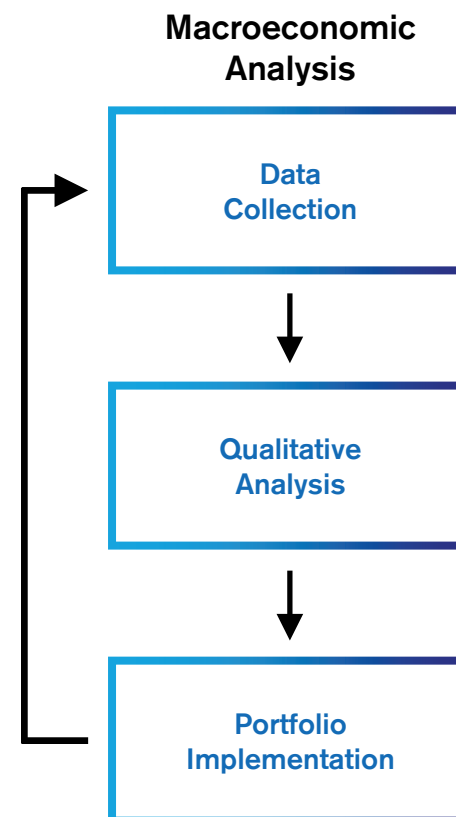

- WestEnd Advisors conducts in-depth analysis of the macroeconomic environment to anticipate areas of strength and weakness in the economy and U.S. equity markets.
- Client portfolios are allocated to the large-cap sectors that we believe will benefit from economic tailwinds, while sectors facing headwinds are avoided.
- WestEnd Advisors then selects ETFs from leading U.S. providers to invest in favored sectors of the U.S. equity market.

For illustrative purposes only.

Macroeconomic Analysis

- WestEnd Advisors' proprietary research process begins with the collection of a broad set of publicly available macroeconomic measures. WestEnd aggregates this information in a database of over 200 domestic and international economic readings.
- The investment team determines which economic data is most important given the current economic environment, and then examines that data in a broader context to develop our economic and market outlook.
- WestEnd Advisors uses this qualitative process and our experience analyzing economic trends to build portfolios that capitalize on opportunities in the financial markets.

For illustrative purposes only.

WestEnd Advisors conducts in-depth analysis of the macroeconomic environment to anticipate areas of strength and weakness in the financial markets and invests accordingly.

Sector Allocation

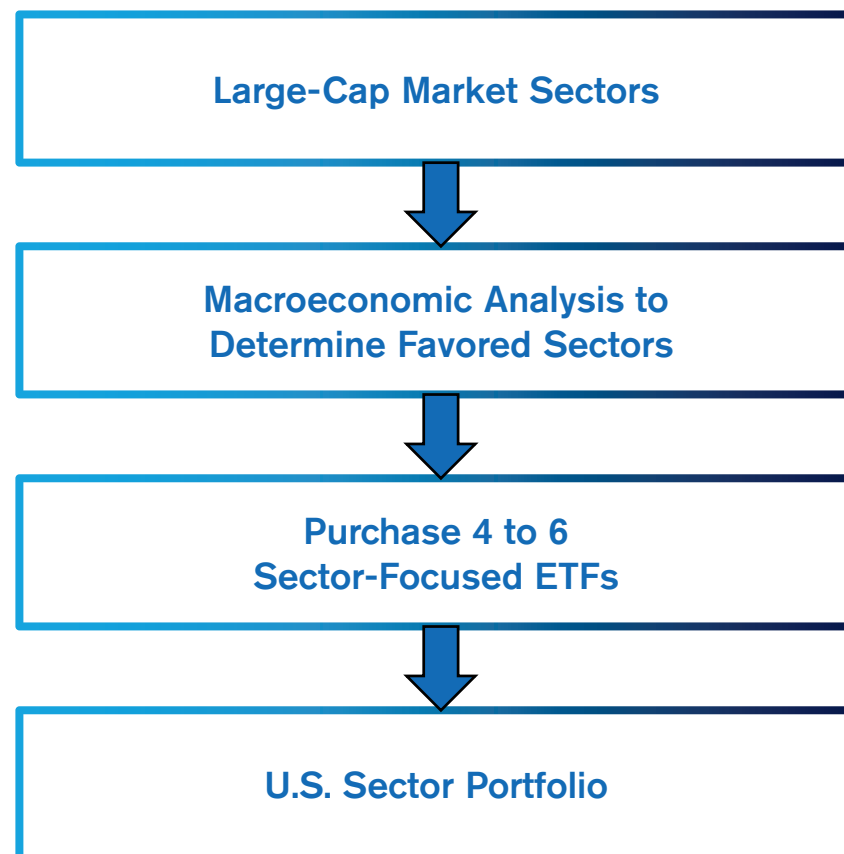

- The path of economic growth is a key driver of S&P 500 sector performance.
- The investment team analyzes recurring cyclical trends and identifies the characteristics particular to the current economic cycle.
- WestEnd actively positions client portfolios in more economically-sensitive sectors when it expects strong growth, and transitions to less economically-sensitive sectors as growth expectations wane.
- Portfolios are typically invested in four to six sectors at any one time based on our macroeconomic outlook, but may be invested in more or fewer sectors as conditions warrant.

For illustrative purposes only.

ETF Selection

- Investment universe consists of ETFs that represent the eleven market sectors.
- WestEnd invests in low-cost, sector or industry-focused ETFs from long-standing ETF providers that:
 - Offer diversified exposure to a particular sector or industry
 - Consist of a basket of well-known, large-cap stocks in each sector
- WestEnd determines favored sectors based on its macroeconomic analysis and then purchases approximately four to six sector-focused ETFs for client portfolios.

For illustrative purposes only.

Sector-focused ETFs offer WestEnd Advisors a diversified vehicle to capitalize on its macroeconomic outlook.

Footnotes & Disclosures

WestEnd Advisors is an SEC-registered investment adviser. Registration of an investment adviser does not imply any level of skill or training. The firm is an independent investment management firm, 100% owned by its active principals. WestEnd manages equity securities for individual, institutional and wrap clients. Total firm assets include all discretionary assets managed by WestEnd Advisors.

WestEnd Advisors' U.S. Sector Composite is invested primarily in U.S. equities. The objective of this portfolio is to provide investors a single investment vehicle with exposure to the U.S. equity Sectors and Industries. Returns are achieved without the use of options, derivatives, or leverage of any kind. Results are calculated daily using the aggregate method, use trade date valuations, and include cash as well as the reinvestment of dividends, interest income, and other earnings, if applicable. Portfolio returns are weighted using beginning of period values plus weighted cash flows. Portfolios and composites are priced daily and are denominated in U.S. dollars only. Performance returns include all discretionary accounts invested in the U.S. Sector model except for portfolios managed by WestEnd Advisors in a wrap-fee program. The U.S. Sector Composite creation and inception date is December 31, 2012. While the U.S. Sector strategy invests in U.S.-based exchange-traded funds, at times there may be limited exposure to non-U.S. investments.

The performance shown is based on WestEnd Advisors' U.S. Sector Composite which includes all fully discretionary accounts invested in the U.S. Sector model except for Wrap-Fee (Wrap) and Unified Managed Account (UMA) accounts. While the accounts in the U.S. Sector Composite are invested according to the same model as Wrap and UMA accounts, performance may differ between the U.S. Sector Composite and Wrap and UMA accounts due to a variety of factors, including but not limited to: fees assessed by Wrap and UMA sponsors (e.g. wrap fees), Wrap and UMA sponsor- and client-imposed investment restrictions, and WestEnd Advisors' lack of trading discretion over UMA accounts.

Net-of-fee performance results are presented after investment management fees paid to WestEnd Advisors, as well as after brokerage or other commissions actually paid by clients in the management of their investment advisory account, but exclude any deductions for custodial fees. The current management fee schedule, as described in WestEnd Advisors' SEC Form ADV Part 2, is as follows: 1.00% for accounts valued at \$100,000 to \$4,999,999; 0.90% for accounts valued at \$5,000,000 to \$9,999,999; 0.75% for accounts valued at \$10,000,000 to \$24,999,999; 0.65% for accounts valued at \$25,000,000 to \$49,999,999; and 0.50% for accounts valued over \$50,000,000. Fees are negotiable where circumstances warrant.

Past performance is not indicative of future results. It should not be assumed that recommendations made in the future will be profitable. The information contained herein is not intended to be an offer to provide investment advisory services. Such an offer may only be made if accompanied by WestEnd Advisors' SEC Form ADV Part 2.

The S&P 500[®] is used for comparative purposes only. The S&P 500[®], our primary benchmark, includes approximately 500 stocks and is a common measure of the performance of the overall U.S. stock market. The S&P 500[®] Index measures the performance of 500 leading companies in the U.S. economy. The S&P 500[®] Index focuses on the large-cap segment of the market, with approximately 75% coverage of U.S. equities. The S&P 500[®] Index is designed to be an indicator of U.S. equities and is meant to reflect the risk/return characteristics of the large-cap universe. The S&P 500[®] Index is a market capitalization-weighted index - each stock's weight in the index is proportionate to its market capitalization. Benchmark returns are not covered by the report of independent verifiers.

The dispersion of annual returns is measured by the standard deviation of the asset-weighted portfolio returns included in the composite for the full year. Dispersion is calculated based on gross returns and is not shown when there are five or fewer portfolios, as the calculation is not statistically meaningful. The 3-year ex post standard deviation is calculated based upon gross returns.

Strategy Advisory-Only assets include assets in Unified Managed Account (UMA) programs for which WestEnd provides Model Portfolios but has no discretion to effect trades, and no supervisory responsibility over the assets in the program.

A complete list and description of all WestEnd Advisors' composites, as well as a presentation that complies with the requirements of Global Investment Performance Standards (GIPS[®]), may be obtained by phone (888-500-9025) or email (info@westendadvisors.com). Policies for valuing investments, calculating performance, and preparing GIPS Reports is available upon request.

Footnotes & Disclosures

Any portfolio characteristics, including position sizes and sector allocations among others, are generally averages and are for illustrative purposes only and do not reflect the investments of an actual portfolio unless otherwise noted. The investment guidelines of an actual portfolio may permit or restrict investments that are materially different in size, nature, and risk from those shown. The investment processes, research processes, or risk processes shown herein are for informational purposes to demonstrate an overview of the process. Such processes may differ by product, client mandate, or market conditions. Portfolios that are concentrated in a limited number of sectors or industries may be subject to a higher degree of volatility than a portfolio whose investments are more diversified.

Holdings, Sector Weightings, and Portfolio Characteristics were current as of the date specified in this presentation. The listing of particular securities should not be considered a recommendation to purchase or sell these securities. While these securities were among WestEnd Advisors' U.S. Sector holdings at the time this material was assembled, holdings will change over time. There can be no assurance that the securities remain in the portfolio or that other securities have not been purchased. It should not be assumed that recommendations made in the future will be profitable or will equal the performance of the securities presently in the portfolio. WestEnd Advisors claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. WestEnd Advisors has been independently verified for the periods December 31, 1995 through December 31, 2020.

A firm that claims compliance with the GIPS standards must establish policies and procedure for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The U.S. Sector Composite has had a performance examination from composite inception through December 31, 2020. The verification and performance examination reports are available upon request.
