# Firm and Strategy Overview

---

# A Boutique Firm Providing Core Solutions

## FIRM HIGHLIGHTS

- Experienced portfolio management team
- Macroeconomic, sector-focused approach since 1996, managing ETF-only strategies since 2005
- Suite of core active SMA portfolios that fit a range of client objectives
- Strategies designed to provide the diversification clients need and the potential outperformance expected from a differentiated, active solution

# Multi-Asset Strategy

## STRATEGY HIGHLIGHTS

- **Inception Date:** January 2018
- **Focus:** Global multi-asset – Long-only, equity, fixed-income, and real asset ETFs and exchange-traded products from leading U.S. providers
- **Risk Mitigation:** Manage downside protection through fixed-income allocation, real asset allocation, regional equity allocation, and U.S. sector avoidance

---

A core, multi-asset solution for investors seeking capital appreciation with risk mitigation from asset class diversification.

## OBJECTIVE

The Multi-Asset strategy primarily seeks capital appreciation across a range of economic environments through active allocations to and within equity, fixed income, and real asset exposures. The multi-asset class strategy combines high-conviction active management with the diversification of low-cost, passive exchange-traded products.

# Investment Process

---

The cornerstone of our investment process is that the macroeconomic environment is a key driver of financial market returns.

# Macroeconomic Investment Process

For illustrative purposes only.

- Conduct macroeconomic analysis to formulate outlook
- Allocate to areas of the global markets expected to benefit from economic tailwinds, underweight or avoid areas facing headwinds
- Select ETFs/ETPs from leading U.S. providers to invest in favored segments of global equity, U.S. fixed income, and various real asset markets

# Forward-Looking Macro Analysis

- WestEnd tracks and analyzes over 200 macroeconomic data series

## SECTORS TIED TO THE ECONOMIC CYCLE

We believe patterns of relative sector performance that tend to play out over the economic cycle can be harnessed to *anticipate* likely sector outperformance.

# Sectors: The Importance of Sector Allocation

## RANGE OF RETURNS BY SECTOR, CAPITALIZATION, AND STYLE

Varied sector performance can create opportunity.

Source: Thomson Reuters, Bloomberg, WestEnd Advisors

Sector performance is represented by sectors of the S&P 500® Index. “Large Cap” is represented by the S&P 500® Index. “Small Cap” is represented by the Russell 2000® Index. “Growth” is represented by the Russell 1000® Growth Index. “Value” is represented by the Russell 1000® Value Index. Data for 2016 excludes Real Estate as a stand-alone sector, which was included in Financials until September 16, 2016. Data for 2018 replaces the Telecommunication Services Sector with the new Communication Services Sector after September 21, 2018, using geometrically-linked total returns to produce a single full-year return, and treats the linked returns as a single sector, due to changes in GICS sector classifications and index rebalancing that occurred as of market close on September 21, 2018. An index is unmanaged and is not available for direct investment. For additional information, see Footnotes and Disclosures at the end of this presentation.

# Sectors: WestEnd Has Over Two Decades of U.S. Equity Sector Allocation Experience

## WESTEND MODEL TARGET SECTOR WEIGHTS FOR LARGE-CAP U.S. EQUITIES\*

Source: WestEnd Advisors

\* Target weights as a percentage of large-cap U.S. equity-only allocation for the strategy indicated as of each date. Large-Cap Core Equity strategy weights exclude cash. Global Equity and Global Balanced strategy large-cap U.S. equity-only sector weights exclude international equities, small/mid-cap U.S. equities, cash and other assets. As a percentage of each strategy's equity allocation, Global Equity and Global Balanced strategy model U.S. large-cap sector weights have been identical since inception.

† Effective September 30, 2018, the Telecommunication Services sector was combined with portions of the Information Technology and Consumer Staples sectors to form the new Communication Services Sector. For additional details, see Footnotes and Disclosures at the end of this presentation.

# Translate Outlook To Allocation: International Equities

For illustrative purposes only.

- WestEnd overweights or underweights developed and emerging market regions based on our assessment of the macroeconomic backdrop
- Domestic versus international allocation derives primarily from the relative attractiveness of underlying allocations

For illustrative purposes only.

# International: A Data-Driven, Regional Approach

## WHY REGIONS

- Interconnected economies and markets
- Differing sector and industry concentrations influence economic sensitivity
- Macroeconomic trends more reliable than individual country data
- Diversification of political, regulatory, and currency risk
- Scale of opportunity set similar to U.S. sectors
- Favorable ETF cost, availability, and liquidity versus individual countries

## DIFFERING REGIONAL SECTOR CONCENTRATIONS

### Market weights of top-three equity sectors in select regions\*

#### U.S.

Well-diversified, tech software and consumer focused

#### South & Central America

Economically-sensitive, resource-focused (Materials and Energy are approx. 37% of market cap)

#### Western Europe

Diversified, industrial-focused

#### Emerging Asia

Tech hardware and export-focused

#### Developed Asia

Industrial and export-focused

# Footnotes & Disclosures

WestEnd Advisors, LLC (“WestEnd”), an SEC-registered investment adviser, operates as an autonomous Victory Capital® Investment Franchise. WestEnd’s active principals are responsible for managing the firm and its day-to-day operations. Registration of an investment adviser does not imply any level of skill or training. WestEnd manages equity securities for individual, institutional and wrap clients.

WestEnd Advisors’ Multi-Asset Composite includes all discretionary accounts invested in the Multi-Asset model except for portfolios that participate in a wrap-fee program. The Multi-Asset Composite creation and inception date is December 31, 2017, and the investment strategy has been consistent since creation. WestEnd Advisors’ Multi-Asset Composite is invested in large, mid, and small-cap U.S. equities, international equities, U.S. fixed-income, U.S. MLPs, and real assets such as commodities, through the use of exchange-traded products (ETPs), and/or high-grade money market instruments. The composite typically has greater exposure to equities, but allocations will vary based on the managers’ outlook. Returns are achieved without the use of options, derivatives, or leverage of any kind. Results are calculated daily using the aggregate method, use trade date valuations, and include cash as well as the reinvestment of dividends, interest income, and other earnings, if applicable. Portfolio returns are weighted using beginning of period values plus weighted cash flows. Portfolios and composites are valued daily and are denominated in U.S. dollars only.

The performance shown is based on WestEnd Advisors’ Multi-Asset Composite which includes all fully discretionary accounts invested in the Multi-Asset model except for Wrap-Fee (Wrap) and Unified Managed Account (UMA) accounts. While the accounts in the Multi-Asset Composite are invested according to the same model as Wrap and UMA accounts, performance may differ between the Multi-Asset Composite and Wrap and UMA accounts due to a variety of factors, including but not limited to: fees assessed by Wrap and UMA sponsors (e.g. wrap fees), Wrap and UMA sponsor- and client-imposed investment restrictions, and WestEnd Advisors’ lack of trading discretion over UMA accounts.

Gross returns reflect the deduction of direct trading costs and the underlying expenses of investment vehicles held in the portfolio. Net performance reflects the deduction of an assumed 3.00% annual fee rate which is intended to equal or exceed the combined maximum advisory program fees and maximum investment management fees charged to advisory platform clients. This combined fee will normally include all charges for trading costs, portfolio management fees, custody and other administrative fees. Composite net returns are calculated by subtracting 1/12th of the highest applicable annual fee rate (3.00%) from the monthly gross return. Due to compounding of returns, full year net returns will typically not equal the gross return less 3%. Actual fees may vary depending on the individual sponsor’s fee. Investment management fees are negotiated directly with advisory program sponsors. Fees are negotiable where circumstances warrant. Additional information on fees is provided in WestEnd Advisors’ SEC Form ADV Part 2.

Past performance is not indicative of future results. It should not be assumed that recommendations made in the future will be profitable. The information contained herein is not intended to be an offer to provide investment advisory services. Such an offer may only be made if accompanied by WestEnd Advisors’ SEC Form ADV Part 2.

The MSCI ACWI (Net) Index, Bloomberg Barclays US Aggregate Bond Index, and Multi-Asset benchmark are used for comparative purposes only. The MSCI ACWI (Net) Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets. The MSCI ACWI consists of 47 country indexes comprising 23 developed and 24 emerging market country indexes. The total return of the MSCI ACWI (Net) Index is calculated using net dividends. Net total return reflects the reinvestment of dividends after the deduction of withholding taxes, using (for international indices) a tax rate applicable to non-resident institutional investors who do not benefit from double taxation treaties. The Bloomberg Barclays US Aggregate Bond Index is a broad-based flagship benchmark that measures the investment grade, US dollar-denominated, fixed-rate taxable bond market. The index includes Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass-throughs), ABS and CMBS (agency and non-agency). The Multi-Asset benchmark is composed of 60% of the MSCI ACWI (Net) Index and 40% of the Bloomberg Barclays US Aggregate Bond Index; is shown to reflect the investments in equity and fixed-income securities; and is rebalanced monthly. Benchmark returns are not covered by the report of independent verifiers.

# Footnotes & Disclosures

The dispersion of annual returns in the Performance Notes table is measured by the standard deviation of the asset-weighted portfolio returns represented within the composite for the full year. Dispersion is calculated based on gross returns and is not shown when there are five or fewer portfolios, as the calculation is not statistically meaningful.

The 3-year ex post standard deviation in the Performance Notes table is calculated based upon gross returns.

Any portfolio characteristics, including position sizes and sector allocations among others, are generally averages and are for illustrative purposes only and do not reflect the investments of an actual portfolio unless otherwise noted. The investment guidelines of an actual portfolio may permit or restrict investments that are materially different in size, nature, and risk from those shown. The investment processes, research processes, or risk processes shown herein are for informational purposes to demonstrate an overview of the process. Such processes may differ by product, client mandate, or market conditions. Portfolios that are concentrated in a specific sector or industry may be subject to a higher degree of market risk than a portfolio whose investments are more diversified.

Holdings, Sector Weightings, and Portfolio Characteristics were current as of the date specified in this presentation. The listing of particular securities should not be considered a recommendation to purchase or sell these securities. While these securities were among WestEnd Advisors' Multi-Asset holdings at the time this material was assembled, holdings will change over time. There can be no assurance that the securities remain in the portfolio or that other securities have not been purchased. It should not be assumed that recommendations made in the future will be profitable or will equal the performance of the securities presently in the portfolio. Individual clients' portfolios may vary. Upon request, WestEnd Advisors will provide a list of all recommendations for the prior year.

WestEnd Advisors claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. WestEnd Advisors has been independently verified for the periods December 31, 1995 through June 30, 2023.

A firm that claims compliance with the GIPS standards must establish policies and procedure for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Multi-Asset Composite has had a performance examination from composite inception through December 31, 2022. The verification and performance examination reports are available upon request.
