

Strategy Objective

The U.S. Balanced Strategy primarily seeks capital appreciation over time, but also maintains an objective of capital preservation through asset class diversification. The domestic, multi-asset class strategy combines high-conviction active management with the diversification of low-cost, passive ETFs.

Inception Date: January 2017
Top-down approach since 1996

Focus: Domestic multi-asset

Investments: Long-only, equity and fixed-income ETFs from leading U.S. providers; no leverage or derivatives

Risk Mitigation: Manage downside capture through active U.S. sector allocation and avoidance, and fixed income allocation

Tax efficiency: Low average annual turnover/long-term holding periods

INVESTMENT PERFORMANCE*

Source: Archer IMS, IDC, WestEnd Advisors. Returns for periods greater than one year are annualized. The blended benchmark for the U.S. Balanced strategy is 65% S&P 500 and 35% Bloomberg Barclays U.S. Government/Credit Bond Index.

CURRENT MODEL ALLOCATION

Source: Bloomberg, WestEnd Advisors

*Based on U.S. Balanced Composite as of 6/30/2026. Net performance reflects the deduction of an assumed 3.00% annual fee. See Footnotes and Disclosures on page 4 for additional information.

**Based on 5 years ended 12/31/25.

PORTFOLIO POSITIONING as of 6/30/2026

- We are positioned for ongoing expansion, with mix of early- and mid-phase sectors that we believe provides an appropriate level of economic sensitivity and exposure to positive secular trends, while adjusting exposures for risks and broadening opportunities we see ahead.
- We maintain significant tech-related and Financials sector exposures and have added allocations to the Transportation industry and the Materials sector, but we are still avoiding some of the most cyclical early-phase sectors.
- We have reduced consumer-facing exposure by exiting the Consumer Staples sector, as we see fundamental tailwinds shifting from the consumer to investment.
- We maintain a modest overweight of the late-phase, defensive Health Care and Utilities sectors, which we believe have appealing fundamentals and can outperform if growth slows.
- We maintain a fairly neutral allocation to fixed income and, within fixed income, we have increased emphasis on longer-term Treasury exposure while our reduced corporate exposure is focused in shorter maturities to limit credit spread risk.

WestEnd Advisors claims compliance with the Global Investment Performance Standards (GIPS®)

U.S. BALANCED INVESTMENT PROCESS

We begin the investment process by aggregating more than 200 domestic and international economic measures into a proprietary database. We then evaluate the data to identify areas of economic strength and weakness in the U.S. equity and fixed-income markets and invest in 7 to 12 ETFs from leading providers.

*Based on U.S. Balanced Composite as of 6/30/2026. Net performance reflects the deduction of an assumed 3.00% annual fee. The U.S. Balanced blended benchmark is 65% S&P 500 and 35% Bloomberg Barclays U.S. Government/Credit Bond Index. See Footnotes and Disclosures on page 4 for additional information.

THE IMPORTANCE OF SECTOR ALLOCATION

The path of economic growth is a key driver of U.S. equity sector performance. The investment team analyzes recurring cyclical trends and identifies the characteristics particular to the current economic cycle. Portfolios are typically invested in four to six large-cap U.S. sectors at any one time based on our macroeconomic outlook, but may be invested in more or fewer sectors as conditions warrant.

RANGE OF RETURNS BY SECTOR, CAPITALIZATION, AND STYLE *

Source: Bloomberg, WestEnd Advisors

Owning the right sectors at the right time and avoiding those not in their ideal economic environment offers significantly more opportunity for outperformance, in our view, than allocating to the right equity style or market capitalization range.

WestEnd actively positions client portfolios in more economically-sensitive sectors when it expects strong growth, and transitions to less economically-sensitive sectors as growth expectations wane.

For illustrative purposes only.

* Sector performance is represented by sectors of the S&P 500® Index. "Large Cap" is represented by the S&P 500® Index. "Small Cap" is represented by the Russell 2000® Index. "Growth" is represented by the Russell 1000® Growth Index. "Value" is represented by the Russell 1000® Value Index. Data for 2016 excludes Real Estate as a stand-alone sector, which was included in Financials until September 16, 2016. Data for 2018 replaces the Telecommunication Services Sector with the new Communication Services Sector after September 21, 2018, using geometrically-linked total returns to produce a single full-year return, and treats the linked returns as a single sector, due to changes in GICS sector classifications and index rebalancing that occurred as of market close on September 21, 2018.

FOOTNOTES AND DISCLOSURES

WestEnd Advisors, LLC ("WestEnd"), an SEC-registered investment adviser, operates as an autonomous Victory Capital® Investment Franchise. WestEnd's active principals are responsible for managing the firm and its day-to-day operations. Registration of an investment adviser does not imply any level of skill or training. WestEnd manages equity securities for individual, institutional and wrap clients.

WestEnd Advisors' U.S. Balanced Composite includes all discretionary accounts invested in the U.S. Balanced model except for portfolios that participate in a wrap-fee program. The U.S. Balanced Composite creation and inception date is December 31, 2016, and the investment strategy has been consistent since creation. WestEnd Advisors' U.S. Balanced Composite is invested in large, mid, and small-cap U.S. equities, U.S. fixed-income, and other assets, all through the use of exchange-traded funds, and/or high-grade money market instruments. Returns are achieved through long-only investment in exchange traded products and without direct use of leverage or derivatives. Indirect exposure to derivatives may exist through the underlying holdings of exchange traded products. Portfolio results include cash as well as the reinvestment of dividends, interest income, and other earnings, if applicable. Portfolios are denominated in U.S. dollars only.

The performance shown is based on WestEnd Advisors' U.S. Balanced Composite which includes all fully discretionary accounts invested in the U.S. Balanced model except for Wrap-Fee (Wrap) and Unified Managed Account (UMA) accounts. While the accounts in the U.S. Balanced Composite are invested according to the same model as Wrap and UMA accounts, performance may differ between the U.S. Balanced Composite and Wrap and UMA accounts due to a variety of factors, including but not limited to: fees assessed by Wrap and UMA sponsors (e.g. wrap fees), Wrap and UMA sponsor- and client-imposed investment restrictions, and WestEnd Advisors' lack of trading discretion over UMA accounts.

Gross returns reflect the deduction of direct trading costs and the underlying expenses of investment vehicles held in the portfolio. Net performance reflects the deduction of an assumed 3.00% annual fee rate which is intended to equal or exceed the combined maximum advisory program fees and maximum investment management fees charged to advisory platform clients. This combined fee will normally include all charges for trading costs, portfolio management fees, custody and other administrative fees. Composite net returns are calculated by subtracting 1/12th of the highest applicable annual fee rate (3.00%) from the monthly gross return. Due to compounding of returns, full year net returns will typically not equal the gross return less 3%. Actual fees may vary depending on the individual sponsor's fee. Investment management fees are negotiated directly with advisory program sponsors. Fees are negotiable where circumstances warrant. Additional information on fees is provided in WestEnd Advisors' SEC Form ADV Part 2.

Past performance is not indicative of future results. It should not be assumed that recommendations made in the future will be profitable. The information contained herein is not intended to be an offer to provide investment advisory services. Such an offer may only be made if accompanied by WestEnd Advisors' SEC Form ADV Part 2.

The S&P 500®, Barclays U.S. Government/Credit Index, and U.S. Balanced benchmark are used for comparative purposes only. The S&P 500® includes approximately 500 stocks and is a common measure of the performance of the overall U.S. stock market. The S&P 500® Index measures the performance of 500 leading companies in the U.S. economy. The S&P 500® Index focuses on the

large-cap segment of the market, with approximately 75% coverage of U.S. equities. The S&P 500® Index is designed to be an indicator of U.S. equities and is meant to reflect the risk/return characteristics of the large-cap universe. The S&P 500® Index is a market capitalization-weighted index - each stock's weight in the index is proportionate to its market capitalization. The Bloomberg Barclays U.S. Government/Credit Index measures performance of U.S. dollar denominated U.S. Treasuries, government-related, and investment-grade U.S. corporate securities that have a remaining maturity of greater than or equal to 1 year. In addition, the securities have \$250 million or more of outstanding face value, must be fixed-rate, and non-convertible. The U.S. Balanced benchmark is composed of 65% of the S&P 500® Index and 35% of the Bloomberg Barclays U.S. Government/Credit Index; is shown to reflect the investments in equity and fixed-income securities; and is rebalanced monthly. Benchmark returns are not covered by the report of independent verifiers.

A complete list and description of all WestEnd Advisors' composites, as well as a presentation that complies with the requirements of Global Investment Performance Standards (GIPS®), may be obtained by phone (888-500-9025) or email (info@westendadvisors.com). Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Attribution Analysis is relative to the U.S. Balanced benchmark and was current as of the quarter specified in this presentation. A complete attribution report is available upon request.

The information presented herein has been gathered from sources believed to be reliable, however data is not guaranteed. Any portfolio characteristics, including position sizes and sector allocations among others, are generally averages and are for illustrative purposes only and do not reflect the investments of an actual portfolio unless otherwise noted. The investment guidelines of an actual portfolio may permit or restrict investments that are materially different in size, nature and risk from those shown. The investment processes, research processes or risk processes shown herein are for informational purposes to demonstrate an overview of the process. Such processes may differ by product, client mandate or market conditions. Portfolios that are concentrated in a specific sector or industry may be subject to a higher degree of market risk than a portfolio whose investments are more diversified.

Holdings, Sector Weightings and Portfolio Characteristics were current as of the date specified in this presentation. The listing of particular securities should not be considered a recommendation to purchase or sell these securities. While these securities were among WestEnd Advisors' U.S. Balanced holdings at the time this material was assembled, holdings will change over time. There can be no assurance that the securities remain in the portfolio or that other securities have not been purchased. It should not be assumed that recommendations made in the future will be profitable or will equal the performance of the securities presently in the portfolio. Individual clients' portfolios may vary.

As of June 30, 2026, WestEnd Advisors had \$0.49 million of assets in the U.S. Balanced Composite. This information is included as supplemental information only.
